

List of GMRS Frequencies and Channels

This entry was posted on November 2, 2022 by Rick.

All of the [GMRS radios](#) we sell at [Buy Two Way Radios](#) operate on the same 22 GMRS channels and frequencies assigned by the FCC. Many of these models support the 8 FCC assigned GMRS repeater channels as well. We are sometimes asked for the exact frequencies of these channels. The chart below lists these frequencies, along with their channel numbers, maximum allowable power, and maximum allowable bandwidth.

1	462.5625	5W	25kHz*
2	462.5875	5W	25kHz*
3	462.6125	5W	25kHz*
4	462.6375	5W	25kHz*
5	462.6625	5W	25kHz*
6	462.6875	5W	25kHz*
7	462.7125	5W	25kHz*
8	467.5625	0.5W	12.5kHz
9	467.5875	0.5W	12.5kHz
